

No, It Isn't

+44

Please understand this isn't just goodbye, this is I can't stand you
This is where the road crashed into the ocean
It rises all around me and now we're barely breathing
A thousand faces we'll choose to ignoreCurse my enemies forever
Let's slit our wrists and burn down something beautiful
This desperation leaves me overjoyed
With fading lights that lead us past the lives that we destroyedI listen to you cry, a cry for less attention
But both my hands are tied and I'm pushed into the deep end
I listen to you talk but talk is cheap
And my mouth is filled with blood from trying not to speakSo search for an excuse and someone to believe you
In foreign dressing rooms I'm empty with the need toCurse my enemies forever
Let's slit our wrists and burn down something beautiful
This desperation leaves me overjoyed
With fading lights that lead us past the lives that we destroyedCurse my enemies forever
Let's slit our wrists and burn down something beautiful
This desperation is leaving me overjoyed
With fading lights that lead us past the lives that we destroyedPlease understandLay rotting where I fall, I'm
dead from bad intentions
Suffocated and embalmed, and now all our dreams are cashed in
You swore you wouldn't lose then lost your brain
You make a sound that feels like pain so please understand
This isn't just goodbye, this is I can't stand you
