No, It Isn't

+44

Please understand this isn't just goodbye, this is I can't stand you

This is where the road crashed into the ocean

It rises all around me and now we're barely breathing

A thousand faces we'll choose to ignoreCurse my enemies forever

Let's slit our wrists and burn down something beautiful

This desperation leaves me overjoyed

With fading lights that lead us past the lives that we destroyedI listen to you cry, a cry for less attention But both my hands are tied and I'm pushed into the deep end

I listen to you talk but talk is cheap

And my mouth is filled with blood from trying not to speakSo search for an excuse and someone to believe you In foreign dressing rooms I'm empty with the need toCurse my enemies forever

Let's slit our wrists and burn down something beautiful

This desperation leaves me overjoyed

With fading lights that lead us past the lives that we destroyedCurse my enemies forever

Let's slit our wrists and burn down something beautiful

This desperation is leaving me overjoyed

With fading lights that lead us past the lives that we destroyedPlease understandLay rotting where I fall, I'm dead from bad intentions

Suffocated and embalmed, and now all our dreams are cashed in You swore you wouldn't lose then lost your brain You make a sound that feels like pain so please understand This isn't just goodbye, this is I can't stand you
