Bobaflex

It's been a long time
And I don't think about the show no more
I wanna go home
I wanna go home It's been a long time
And I don't think I like the road no more
I wanna go home
I wanna go home Just relax
And take the red one first
So you can go back to work
That they can go back to work Just relax
And take the red one first
So you can go back to work
That they can go back to work I'm driving all night
And I don't know where we were yesterday
Is it time we play? Which way's the stage? The crowd was on fire
And I don't recognize a single face
Oh, by the way
Can we stay at your place? Just relax
And take the red one first
So you can go back to work
And they can go back to work Just relax
And take the red one first
So you can go back to work
And they can go back to work I'm out of my mind
And I don't care what the doctors say
I'm not okay, I'm not okay It's been a long time
And I don't think you'll help me any more
Because you're through
I wanna go home Just relax
And take the red one first
So you can go back to work
And they can go back to work Just relax
And take the red one first
So you can go back to work
And they can go back to work
