

# D'Ye Ken Ted Moul't?

## Half Man Half Biscuit

Our Ted it has to be said  
produces proof beyond us  
rain, shine or gale force nine  
his frames remain intact  
helicopters in my garden bringing wind, i beg your pardon  
double glazing is amazing  
don't you all agree? No fears they'll last you for years our statistics prove it  
and you'll pose when everyone knows it's you who sets the pace  
On the cold and frosty mornings scoff and howl at yul'tide warnings  
insulation for the nation that's the one for me No draft cos that would be daft a feather acknowledges Newton  
and a ball and chain let loose on the pain can only smash your nerves  
In the hibernating season pick the best it stands to reason  
no complaing when it's raining thanks to Mr Moul't.
