

Biting Down

Lorde

It feels better biting down (x6) Skip a hit, don't make a sound
(It feels better biting down) Breathed so deep I thought I'd drown
 (It feels better biting down) Listen to the bitter sound
 (It feels better biting down) It feels better biting down
(It feels better biting down) (x3) Skip a hit, don't make a sound
(It feels better biting down) Breathed so deep I thought I'd drown
 (It feels better biting down) Listen to the beats resound
It feels better biting down (x2) The electronics of your heart
 See how fast they fall apart
 (It feels better biting down) The electronics of your heart
 See how fast they fall apart
(It feels better biting down) (x2) Skip a hit, don't make a sound
 (It feels better biting down)
