

# Night Flu

Ursel

Can you stay for a while  
keep this minute alive  
as the day runs my time  
dont you please pass me by  
can you stay for a while  
Can you stay for a while  
stay around in my mind  
dont you give me a lie  
can you stay for a while  
can you stay for a while  
The sensation you give  
any feeling I live  
makes me feel so in style  
can you stay for a while  
so can you stay for a while
