

# Casa Nova

## Mia Doi Todd

I can fall in love again  
I can feel the curse you cast is over  
No more, no more Casa Nova  
Hip hip hurray, oh Hallelujah I havent changed much in these ten years  
I hit my head up against the wall  
Of my same ol fears, my same ol fears  
My same ol tears, Im breaking mirrors I know myself again  
I remember what is good about me  
If I let it out of hiding My enemy, proven to keep me down  
Love as a memory of kindness  
And cruelty and cruelty  
And honesty and true beauty I can fall in love again  
I can feel the curse I cast is over  
No more no more Casa Nova  
Hip hip hurray, oh, Supernova  
Supernova, Supernova, Four-Leaf Clover
