

# For My Lady

## Blood, Sweat & Tears

The silence of your smile  
Your fingers whisper slowly  
My lady walks a mountain mile  
And I want her only, only I'll walk with you a while  
And whistle with the swallows  
My lady walks a mountain mile  
And children, they will follow, follow I'll give you beads and rings  
The earth will be a mother  
My lady's arms are angel wings  
The sky her only lover, lover
