

I Wanna Hear You Say It

Michael Bolton

Gimme back my breath, gimme back my senses
Gimme back my life, all my second chances
If I'm gonna give my all, never be without you
Tell me will you catch my fall 'cause I'm about to Love is written on your face
Do you believe in what you've found?
I'll be lost in time and space until I hear that sound I wanna hear you say it, doesn't get any better than this
If this ain't really love then tell me baby what it is
Without you I can't breathe, what do you promise me
I wanna hear you say it, I wanna hear you say it Gimme back my pride, take away this silence
Gimme back my faith, show me where this road ends
Take away my choice, deliver me forever
You can free me with your voice even if you whisper Love is written on your face
Do you believe in what you've found?
I'll be lost in time and space until I hear that sound I wanna hear you say it, doesn't get any better than this
If this ain't really love then tell me baby what it is
Without you I can't breathe, what do you promise me
I wanna hear you say it, I wanna hear you say it Don't make me wait for it, you know I ache for it
Don't make me break down and walk away
Your eyes have said to me, walk to the ledge with me
We're on the edge baby, tell me what I need to know I wanna hear you say it, doesn't get any better than this
If this ain't really love then tell me baby what it is I wanna hear you say it, doesn't get any better than this
If this ain't really love then tell me baby what it is
Without you I can't breathe, what do you promise me
I wanna hear you say it, I wanna hear you say it I wanna hear you say it, doesn't get any better than this
If this ain't really love then tell me baby what it is
Without you I can't breathe, what do you promise me
I wanna hear you say it, I wanna hear you say it
