

# Magnet

## Orange 9mm

Love is blind and so is my conscious  
I killed it's witness to watch it die  
Underline, deny pretentious  
Ways to take this, your reply Says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we find" Issue with you  
Issue, so shined with doubt  
Issue with you  
Issue, so shined with doubt Justify, defy the cautious  
Who turn to anxious and don't know why  
They decide and turn religious  
When days are vicious, your reply Says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we find" Issue with you  
Issue, so shined with doubt  
Issue with you  
Issue, so shined with doubt, yeah Love is blind and so is my conscience  
I killed it's witness to watch it die  
Underline, deny pretentious  
Ways to take this, your reply Says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we've done this"  
It says, "At times we find" Issue with you  
Issue, so shined with doubt  
Issue with you  
Issue, so shined with doubt
