

# Inverted Churches

## Nunslaughter

Gods' zombies eat the mind  
Of the dead guts entwine  
Dogs of war upon the throne  
Drink the blood crush the bone  
Die rot in hell  
Sarcophagus is open wide  
Stench of death from inside  
The corpses of the dead  
Rise to eat life we dread  
Blind fear terror  
Inverted church a cross is burning  
Evil one your God is turning  
To a force that is twice as strong  
The lord Satan commands us all  
Can you see the fallen beast  
Massacre a blood feast  
To keep me pure I eat your heart  
Such a glory to be torn apart
