

Inverted Churches

Nunslaughter

Gods' zombies eat the mind
Of the dead guts entwine
Dogs of war upon the throne
Drink the blood crush the bone
Die rot in hell
Sarcophagus is open wide
Stench of death from inside
The corpses of the dead
Rise to eat life we dread
Blind fear terror
Inverted church a cross is burning
Evil one your God is turning
To a force that is twice as strong
The lord Satan commands us all
Can you see the fallen beast
Massacre a blood feast
To keep me pure I eat your heart
Such a glory to be torn apart
