Obscure Sorrows (feat. Laura Newman)

R-kade Robot

Shadows of promises
cast upon the wall
by all the hallows of providence.
Yet I wander aimless
in the shallows of consciousness.
Iâ€™ll be here waiting
for the gallows of time to descend.
Searching for meaning.
Waves are crashing in to me.
The surface is gleaming.
Shifting sand between my toes.
I take it all in,
and I feel the air upon my skin.
Then I fall to my knees
cuzâ€™ I thought it might help
if I tried to imagine my life
as a beautiful thing,
but I catch my reflection,
and realized Iâ€™m just like the world
where Im hung without strings.
Iâ€™m cornered in the tide pool,
and Im certain if I take a dive
Iâ€™ll drift as the tide pulls me up
onto the shore to find
Iâ€™m right back in my cruel world
suspended in an absent mind.
If only I could find
my absent heart.
So Iâ€™m here skipping stones
while I skim across the surface.
I reschedule indulgence
as Iâ€™m chasing after purpose.
Now Iâ€™m lost in my headspace
only I was never found
in the first place.
The world falls away,
and Iâ€™m foraging in memories.
A vivid image
in a dream

in which I canâ€™t comprehend.
Cuzâ€™s I thought it might help
if I tried to imagine my life
as a beautiful thing,
but I catch my reflection,
and realized Iâ€™m just like the world
where I am hung without strings.
