

# Sugarcoat It

## DC Talk

Movin' at the speed of sound  
There has never been a lull in the motion  
Conversations swirled around  
Strangers questioning their devotion  
Welcome to the world of talk shows  
Where everybody seems to know People talk and never listen  
Come to their conclusions  
So we'll feed 'em with the spoon  
That makes the medicine go down Baby, you got it, baby, we wrote it  
Maybe you thought that we sugarcoat it  
Ain't gonna hide it, gotta expose it  
Yeah, we're gonna let our light shine Standing on the stage of life  
We are waiting for the final curtain  
You can take a seat and watch tonight  
But you're gonna get more than you came for Bam and welcome to our jam  
Where folks are getting down  
The Jesus freaks from  
Every part of this here town You can try and ask us why  
We came to this solution  
Though words may fly  
You can't deny  
It's in the air tonight Baby, you got it, baby, we wrote it  
Maybe you thought that we sugarcoat it  
Ain't gonna hide it, gotta expose it  
Yeah, we're gonna let our light shine Baby, you got it, baby, we wrote it  
Maybe you thought that we sugarcoat it  
Ain't gonna hide it, gotta expose it  
Yeah, we're gonna let our light shine  
Let our light shine, let our light shine  
Let us shine, let us shine Boom, they thought we'd change our tune  
They thought that we'd go bust  
They thought we'd crumble  
Like my grandma's flaky crust Kapow, up in the here and now  
The truth is screaming big  
A light so bright whether day or night  
It can't be hid Baby, baby, you got it,  
Baby, we wrote it, ain't gonna hide it  
Yeah, we're gonna let our love light shine Baby, you got it, baby, we wrote it  
Maybe you thought that we sugarcoat it

Ain't gonna hide it, gotta expose it  
Yeah, we're gonna let our light shineLet your love shine, let your love shine  
Let your love shine, let your love light shine  
Your love light shineLet your love shine, let your love shine  
Let your love shine, let your love light shine  
Sugarcoat it
