

Until the End of Time

Foreigner

When I was young and the world belonged to me
I thought that love meant pain and jealousy
It was a cross on my shoulder
Oh Lord, now I feel so much older Time had a way of making me see
My lonely life has taken its toll on me
Now I feel the emptiness
And I don't want to live like this Now I've heard stories, I've heard songs
Telling me believe my heart, don't wait too long
But words that don't ring true
Until there was you Never will I lose this heart's desire
Ever will I feed our love's fire
Only when I know that you'll be mine
Until the end of time How do I trust what I'm beginning to feel?
And how deep my soul, how much can I reveal?
I'm lost in love's mystery
I'm caught between time and eternity Now there's a door that opens wide
Slowly I will find my way and reach inside
But I couldn't make it through
Until there was you Never will I lose this heart's desire
Ever will I feed our love's fire
Only when I know that you'll be mine
And only when I see the light of love shine
Until the end of time Never will I lose this heart's desire
Ever will I feed our love's fire
Only when I know that you'll be mine
And only when I see the light of love shine Never will I lose this heart's desire
Ever will I feed our love's fire
And when I see the light of love shine in your eyes
When they meet mine only then I know it's you and I
Until the end of time
