Home Sweet Home

The Farm Inc

My world's a roller-coaster and my life's a traffic jam
All this mess ain't even close to bein' who I am
I've been dreamin' Carolina, catchin' craw-dads by the creek
But I'm stuck here in this prison cell full of city streetsI need a little time, I need a little space
I need a little gone, a little out of this place
I wanna get back where I can breathe
Where I feel free, yeahTake me back, I've been away too long
Take me back to my home sweet homeI can smell my mama's cookin'
And the sweet magnolia trees
Nothing like suppertime on a summer night
I can hear those crickets callin' meI need a little time, I need a little space
I need a little gone, a little out of this place
I wanna get back where I can breathe
Where I feel free, yeahTake me back, I've been away too long
Take me back to my home sweet homeI need a little time, I need a little space
I need a little gone, a little out of this place
I wanna get back where I can breathe
Where I feel free, yeahTake me back, I've been away too long
Take me back, I've been away too long
Take me back, I've been away too long
Take me back to my home sweet homeKissin' Jenny Lynn on a front porch swing
Catchin' fireflies on the first day of spring
Swingin' along while the church choir sings
Sneakin' around on a full moon night
Makin' out for the very first time
Those were the best days of my life
