

# Enter The Glade

## Falconer

Listen to me children, and I will fill your ears  
With all the sweet things, you love to hear  
If you are scared of death, here's eternal life  
If you're down and all alone I'll show you a paradise  
For you to rejoice  
I'm your wishing well  
I'm your only choice Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate  
And I will be your guide Bring me all your treasures and I'll grant you my love  
Buy yourself a dream or a chance to redeem  
If you look hard, you'll see me in the sky  
Reaching out with loving hands Showing you the light  
That is now for sale  
Don't you hesitate  
But buy yourself a grail Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate  
And I will be your guide Kneel in front of the man who was sent by God  
Show your great respect for the chosen one  
Here you have the ticket to immortality  
Just how much will you pay for ecstasy? Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate  
And I will be your guide Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate Enter the glade that I create  
I'll lead you through all sorrows  
Follow the path towards your fate  
And I will be your guide
