Give It Some Action

Fastway

I can see the misery
Shoot in my bones
My state of mind is far behind
To when I left home'Cause over here
The man he's sayin'
Nothing to make me stay
But don't you worryI'll be alright
I'll make it okayGive it some action
If you know what I mean
Give it some action
I'll make it plain to seeDon't look around, I hear you sayin'
You don't, you don't want my love
And now I find
A piece of my mind thrown awayBut don't you worry I'll be alright
I want, I need, to make it last
Uh, oh I hear you come on strong
Yeah, I'll make it payGive it some action
If you know what I mean
Give it some action
I'll make it plain to seeLivin' is easy
If you're payin' the price
If you're lookin' for someone
Then mister I'm your guyMy state of mind
Is far behind
To when, to when, I called your love
And now I find you're losin' timeTo make it all the same
Um, I said I love your style
I want, I need, to make it last
Uh, oh I hear you come on strongYeah, to make it pass
Give it some action
If you know what I mean
Give it some action
I'll make it plain to seeLivin' is easy
If you're paying the price
If you're lookin' for someone
Then mister I'm your guy, yeahGive it, give it, give it some action
Give it, give it, give it some action
Give it, give it, give it some action
Come on, come on, come on

Come on, come on, come on
Come onGive it some action
Give it some action
