

Unclear

Kodamine

Don't know if I'll risk it again

When the future is so unsure
When the future is so unclear

Whoa

Whoa

Say swallow your heart
And you swallow your pride

You gotta be tough

If you wanna survive

Let you you up

And they'll eat you alive

You shouldn't give up

On the dreams in your mind

When the future is so unsure
When the future is so unclear

Whoa

Whoa
