

Take Her Out

Alice In Chains

Here I am again
I feel time is dragging on
Aren't you getting tired of me?
Whinging overdrawn
Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again
In a bodiless embrace
Thriving, I have grown
Fickle, changing, grip replaced
Choking, take it all
Faceless, blind
Want to take her out again
She's not just mine

Want to take her out again
Dedicated, true to form
Still the only one
Only guarantee
Continue after I am done
Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again
Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again
