Your The One I Want

Tonya Mitchell

Your the one-The one I want yeah uh your the one i want ooh
ur the one-The one I want yeah uh your the one I wantWhen you put your arms around me when i feel you next to me
I get a spot in side that mights my curiosity
you are something special and I think you might be the one I've been waiting for
tell me,could you be my love everlastingThat means every time we're together
I get the feeling you might feel the same way
oh my this could be forever you know you got me
I just want to love you forever stop and tell me the truth do you feel the same way
Baby you know you got me (ooh)Tell me could it be the way that you love me
tell me could it be the way you touch me
Boy you know your the one i want yeah uh huh your the one,your the one,your the one I want yeah
in the middle of the night when I want someone to hold me
your the only one who knows how to love me (ooh ooh)
