Run Away

Anthem Lights

Take a breath, Take a break for a minute
Now I've gotta figure this out
I'm sick of fools, Sick of losers still winning
I get so turned aroundThe other shoe dropped
When I drew the last straw
Then the camels back broke
And I'm done pretending
Nothing can get me downI'm a little unwell, Like I'm not myself
And I need another joke
Like I need a heat stroke
Gotta get out somehowWe can run away, We can take flight
We don't need a reason
We can ride all night
Don't worry the world won't break (d-d-down)
Don't worry just make your escapeWe can disappear, Fade into the starlight
Never looking back, Somehow it's alright
Don't worry I don't care what they say
We can run, We can run, We can run awayI've always heard, Not to hide from the hard times
Maybe I should take it head on
What's the use, When it's crooked by design
Oh, I'd rather not be a pawnThe other shoe dropped
When I drew the last straw
Then the camels back broke
And I'm done pretending
Nothing can get me downI'm a little unwell, Like I'm not myself
And I need another joke
Like I need a heat stroke
Save me before I drownWe can run away, We can take flight
We don't need a reason
We can ride all night
Don't worry the world won't break (d-d-down)
Don't worry just make your escapeWe can disappear, Fade into the starlight
Never looking back, Somehow it's alright
Don't worry I don't care what they say
We can run, We can run, We can run awayBaby nothing can stop us
We can build our own metropolis
We got everything that we need
We can live a fantasyBaby nothing can stop us
We can build our own metropolis

We got everything that we need
We can live a fantasyWe can run, We can run, We can runWe can run away, We can take flight
We don't need a reason
We can ride all night
Don't worry the world won't break (d-d-down)
Don't worry just make your escapeWe can disappear, Fade into the starlight
Never looking back, Somehow it's alright
Don't worry I don't care what they say
We can run, We can run, We can run awayBaby nothing can stop us
We can build our own metropolis
We got everything that we need
We can live a fantasyBaby nothing can stop us
We can build our own metropolis
We got everything that we need
We can live a fantasyBaby nothing can stop us
We can build our own metropolis
We got everything that we need
We can live a fantasyBaby nothing can stop us
We can build our own metropolis
We got everything that we need
We can live a fantasy(We can run, We can run)
Oooohhhhhhh
(We can run, We can run, We can run away)Doesn't matter where you wanna go
I can take you there, Just let me know
Doesn't matter where you wanna go
I can take you thereI'll give you everything, Just say the word
I'll spend my every breath, To let you learn
I'll give you everything, Just say the word
I can take you there
