

# Manitou

## Stampeders

Across infernal wastelands  
Many miles of sunburnt Hell  
Tribes are scattered limbs  
And dust all laying as they fell  
Open lies the challenge to all  
Warriors now men  
Let the spirits guide the winds  
Until Manitou ascends  
Manitou  
Manitou

Manitou Watch the unseen burial  
Eclipse the blazing skies  
Feast the wings of death  
With Manitou the soul shall vie  
Distant beats the wardance  
Echo screams out liberty  
Patience stalks the crow  
White man's scalp brings victory  
Manitou

Manitou Mighty be the powers  
Of the old medicine man  
Whispers of his raindance  
Flow across the desert sands  
Guardian of the elder spirit  
Summoning the storm  
Awaiting his arrival

Manitou of flesh is born  
Manitou  
Manitou  
Manitou
