

# Burn Burn Burn

## Burning Hearts

I'm covered with flames, my skin is on fire but I won't burn burn burn burn  
This mountain I climb, is dangerously high, but I'm not about to fall fall fall fall fall  
I'm swimming too far in the cold and dark, but I won't drown drown drown drown  
These wings carry me over the seas so I can touch ground ground ground ground

Over the deserts, into the forest I run as a child to hide from my hunger  
My biggest fear, I fight with my hands and my spear

Over the deserts, into the forest I run as a child to hide from my hunger  
My biggest fear, I fight with my hands and my spear

I'm covered with flames, my skin is on fire but I won't burn  
This mountain I climb, is dangerously high but I'm not about to fall fall fall fall  
I'm swimming too far in the cold and dark, but I won't drown drown drown drown  
These wings carry me over the seas so I can touch ground ground ground ground

4x Over the deserts, into the forest I run as a child to hide from my hunger  
My biggest fear, I fight with my hands and my spear
