

Never Wanted This

[Armin Van Buuren](#)

Leave me in the outside
Where I can feel the rain fill off my shoes
Cover me with kisses
And I will soon forget what I've been through
Run away forever
Leave me with no "forward" in the glance
Find another lover
Leave me in emotional undress
[Chorus:] I never wanted this
I never asked you for anything

I never wanted this
[x2] Bitter sweet reception
Take my hand and look into my eyes
Father of Invention
Only You could make a truth from lies
[Chorus:] I never wanted this
I never asked you for anything
I never wanted this
[x2]
