Hot Chick

Uffie

On my way to Miami
I see all kind of freak
From icky-sticky bitches
To fetish friendly tricks
When I go out
Some like get me drunk and wild
But the only thing you get tonight
Is my fucking drink tab

Yes I'm like
Hot chick that you can't even touch
I'm like this cold ass bitch and
I ain't ready to suck
Uffie is here the boys are screaming
And the club is packed
And this one is for all my ladies
Who like to shake it like that

So get your ass on the floor
Down to the floor
Take your ass on the floor
Down to the floor
Take your ass on the floor
Down to the floor
Take your ass on the floor
Down to the floor

Take your ass on the floor
Down to the floor
Tap your funky dancing shoes
I can't hear I want more
Don't you stop
Yes I want to see you're getting hot
Uffie has got the hottest tracks
And the shit on lock
You've got me
Kick up the sounds
So I'm tearing this sound
and you can spin a little faster

I still rippin this song
They call me uff
Yes I'm young but I ain't givin' a fuck

If you got beef I thought you knew
I am ready to fuck, oh
It can't be stopped, no
We stop the rock
So viciously that you don't even want us to stop
I came to dance and shake on this t-t-t-techno shit
But it sound a little fresher when uffie rock the b-b-b-b-b-beat

In the club
I am tired to hear the same techno shit
With all the dancing crap
It's just a road of hits
Where as the sound I like to hear
That keep me shaking my ass
I like an electronic beat
With a vocal that kick ass

I've groovin' in the USA
Cause my first track is like a commercial for NRA
But I feel great rocking Europeans on this club scene
I put my dirty plot out there cause it is too fucking clean
And that's right
Have another drink
I want to party hard
Maybe roll out the fucking weed
We gonna party hard
Till the sunrise
We gonna get all sticky n shit
But you don't care as long as me and dj feats drop the heat

I'm like hot chick
That you can't even touch
I'm, I'm like hot chick
That you can't even touch
I'm, I'm like hot chick
That you can't even touch...
