

# Simple Life

## Toto

Days feel so lone  
My life seems short as years go by  
    The chance that I took  
    The feeling so strong I had to try  
All of the pain I left behind  
    Been down the road  
    My heart has been sold  
    The price was deep  
    The world that we have  
The wish that we've made is ours to keep  
    All our emotions are so deep  
    'Cause I can't stop  
Falling in love with you  
All I want is a simple life  
    All I really want is you  
    All I want, all I need is a simple life...
