

# She Walks Alone

## Adolescents

She spent the last of her teenage years  
At home alone with her worst fears  
When the telegraph came, she did not know who to blame[Chorus:]  
She walks alone [x9]The War that took her husband's life  
It made a widow of his wife  
The world came crashing in, she made a haunt to rest with him[Chorus]She walks alone!She leaves the flowers  
on his grave  
The last one we forgot to save  
A note of long regrets, the pension checks are all she gets[Chorus]
