

# Die in the Night

## Exciter

He thrives on brutal sport  
Takes pleasure from the pain  
Murder shrouds his every move  
Legend tells his tale  
Of undead lords of war  
In the dark the killing starts Die in the night - Die in the night  
Die in the night - Die in the night A villain of the night  
He's ruling with his might  
Take by force, well of course  
He's driven by his lust  
His kind we can not trust  
Plot to kill, yes he will Die in the night - Die in the night  
Die in the night - Die in the night He's feeding evil lies  
To unsuspecting prey  
His lust for blood never stops, no  
Nocturnal in his ways  
He'll cast a spell of charms  
He spins a web you can't escape Die in the night - Die in the night  
Die in the night - Die in the night  
Die in the night - Die in the night  
Die in the night - Die in the night... [Beehler, Johnson, McPhee]
