Secret World

BjÃ¸rn Lynne

Chorus: Comets in the skies are shining
Faster than the stars are flying
You can close your eyes and feel free
In my secret world
It's just another rainy day
You need to find another way
To get away from this dimension
Listen to what you feel inside
There is no need for you to hide
Follow me through these new directions
You can dream about it
Fantasize it
Come into my world
Chorus
I know there's something in your mind
Each time I look into your eyes
We can create a new connection

Together we play this simple game
Whenever you need me, call my name
Feel this pure vibration
You can dream about it
Fantasize it
Come into my world
Chorus x2
Hear me, calling, fall into my secret world
Hear me, calling...
Chorus
Listen to my voice and singing
Melodies you never heard
Only when you let yourself fall in my secret world
Chorus
