

# Josiah

## Sabre

It's only a three day drive  
And I was hoping you'd come along  
Come on Josiah, don't be crossI hear New Mexico is really gorgeous this time of year  
Don't you want to see the Spanish mossI've been running far too long  
For you to give up on me now  
Won't you find a comfort in your friend  
And the big blue sky is much to empty without you putting me down  
And I'd really like to know you're holding my handI'm playing cedar guitar  
And I've been thinking you wanted to  
Come on Josiah, sing alongYou never said no before  
To six strings on a cedar guitar  
But I've betting you didn't want to start off wrongI've been running far too long  
For you to give up on me now  
Won't you find a comfort in your friend  
And the big blue sky is much to empty without you putting me down  
And I'd really like to know you're holding my handIt's only a three day drive  
Josiah come on pack your bags  
I know you needed to get awayI hear New Mexico is really gorgeous this time of year  
Don't you want to watch the children playI've been running far too long  
For you to give up on me now  
Won't you find comfort in your friend  
And the big blue sky is much too empty without you putting me down  
And I'd really like to know you're holding my hand  
Yes I'd really like to know you're holding my hand  
I'd really like to know you're holding my hand.
