Famous for a Century

Secret & Whisper

A killer does not reveal
That he's out of touch with everything that's realSpend time with the celebrities online
They'll make you feel good
My life on the television
My life with a moderate revisionRemember to be good to you
Put leaves upon your face
I'll take a few to remind me of the woods
And severed legsTell me what it's like to sleep outside
Ingestible to the animals
My life on the television
My life with a moderate revisionRemember to be good to you
Put leaves upon your face
And I'll take a few to remind me of the woods
And severed legsI'm never ending
And famous for a century
I'm never ending
And aloneWe are so much alike, you and I
You're a hobby and I'm a killer, killerRemember to be good to you
Put leaves upon your face
And I'll take a few to remind me of the woods
And severed legs
