

A Change

Flipsyde

[Verse 1]

If it wasnt for my pain
Then I wouldnt know my strength
If it wasnt for my future
I wont be fightin here today And of course, I know my way up
Cause I fell the same way down
What matters is what you do
When the troubles come around Take a step now
Get up on your feet
Gotta be brave
No clouds above thee Follow your heart
And then youll see
Theres always a way
Hold on tight
Tomorrow will bring
Every key to every locked dream
It aint hard as it seems [Chorus]

Baby dont cry
Things are bout to change
Baby dont cry
Things are bout to change
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history [Verse 2]
Your mind carries heavy weight
And your knees are kinda weak
You wanna run and fly away
But you hurt the wound is deep You feel like its time to give up
When your soul is cryin loud
Nothing lasts forever
You will find your way Take a step now
Get up on your feet
Gotta be brave
No clouds above thee Follow your heart

And then you'll see
There's always a way
Hold on tight
Tomorrow will bring
Every key to every locked dream
It ain't hard as it seems [Chorus]
Baby don't cry
Things are bout to change
Baby don't cry
Things are bout to change
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history [Verse 3]
I only wanna be a real man
I already got a real plan
I ain't gotta be rich
I ain't gotta have wealth I just do the best I can
Cause the life of a child
Innocents worth more
Than a ring and ya new jeans Got love in my life
And that's all that I need
You believe and you succeed
And through the pain and the hard times We push on with our head high
Each one reach one clothe one feed one
Do it right now, it's time Things about to change
Oh yes, we can
Things about to change
Yes yes we can Things about to change
Oh yes, we can
Things about to change
Yes yes we can Things about to change
Oh yes, we can
Things about to change
Yes yes we can [Chorus]
Baby don't cry
Things are bout to change
Baby don't cry
Things are bout to change
And all the hurt and the tears
Will be just history

And all the doubts and the stress
Will be just history
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
