

# Serious (feat. T-Pain)

## E-40

yeah, get it in the morning, yeah, yeah,  
cause i'm so serious, get it in the morning  
cause i'm so seriousso serious listen miller if you want you hustling money for real  
you gonna bounce back if you got get back squeal  
fuck all that whipping and and crime  
i'ma make it do what it do get out and get my grind  
i'm on that graveyard shift my water feel pass me  
cause when i try to stay focus got a 24 hours notice on my  
business is slow, i speak the truth will pressure out the roof  
a long way from being recession  
i'm going through  
i ain't trying to be a deadbeat dad i want my kids to have a better life than i had  
my cellular off, loosen more minutes over my limit  
had the money but bought ...of weed that i can flip it  
man i cause that's what some of us black folks do  
instead of we gonna buy the new jordan shoe  
milk and diapers and baby wipes cost an arm and a leg  
a breast of wing and a  
hustle trying to get by, hey don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morning  
don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morningi'm sick and tired of being sick and tired of being broke  
i'm sick of this sequel  
man i swear i hate till them people brought down on my luck  
and got a on my name, dirty testing i'm pissing in a cup, what the fuck  
they found weed in my system, i told my girl i was quitting  
they sent me back to san quentin for 90 days  
did my time and got out, now i'm in the unemployment line trying to figure shit out  
but the penal system got me by the next  
with my troubled past i can't even get me a job  
my partner rap he got his own record label they doing their thang  
if i holler at him maybe he can shoot me some change  
plus i'm a loyal nigger man, i learn quick bro i ain't stupid

all you gotta do is show me 1 time and i can do it  
my fellow put a hustle under his wine, show me the gang  
now i'm doing my thanghey don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morning  
don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morningi'm trying to stay out of trouble and triple double quadruple this little change that i got  
by throwing a few concerts  
but i'm not too sure if i'm ready to spend this reason  
why is rap shows don't always go that way  
uh, and the chances are that i probably won't regroup  
so i'ma take this loot and put some old school rnb soul groups  
that way the value insurance won't be that high  
and plus i'm minimizing the chance ...somebody dies, that's right  
i got a homie that work at the toll bridge  
he make good money, plus he get benefits  
she been holling at me never the lesson  
trying to get a nigger a job there which is a blessing  
but i don't think the homie really understand  
i am an entrepreneur man i ain't working for no white man  
attitude of a hood boy, all my life i've been running from the i'm serioushey don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morning  
don't underestimate me,  
a couple of days is all is gonna take me  
cause i'm so serious, and go like that  
i drop it off and it come right back  
i get it in the morning.
