

Back On the Ground

Halloween

We can race over the mountains
Sail over the spheres
We can ride under the oceans
But we can't fight our fear
Something's wrong with the world today
Do you know what it is?
We believe to govern nature
Find ways to lengthen our life
And we go through digital stages
Still the children cry
Something's wrong with the world today
Do you know what it is?
The planet could be a better place
If we spot the miss
But I guess I would see a start
I will sing it loud
Won't you put your feet back on the ground?
We explore the existence of aliens
Try to conquer the space
We refine nuclear science
Still to die in the haze
Something's wrong with the world today
Do you know what it is?
The planet could be a better place
If we spot the miss
But I guess I would see a start
I will sing it loud
Won't you put your feet back on the ground?
Something's wrong with the world today
Do you know what it is?
The planet could be a better place
If we spot the miss
But I guess I would see a start
Take without doubt
Won't you put your feet back on the ground?
(Won't you put your feet back on the ground?)
