

# Hope For Us All

[Nick Lowe](#)

People are remarking on the change that's come over me  
It can be explained very easily Out of the blue, someone's come into my lonely world  
And now I'm walking tall  
And if even I can find someone  
There's hope for us all I had a reputation as a stay at home so and so  
Cause when my friends would call me up  
And say, "Let's hit a club"  
I'd tell them no, no, no, no I must admit there were times  
When all I ever did was climb the walls  
But if even I can find someone  
There's hope for us all If even I can find someone  
There's hope for us all Even in my darkest hour  
There was still a light somewhere  
Letting me know by its glow  
That I'd find comfort there I walked a lonely street  
Waiting for love to come  
And if even I can find someone  
There's hope for us all I must admit there were times  
When all I ever did was climb the walls  
But if even I, a feckless man  
Who's thrown away every single chance he's ever had  
Can find someone to check his fall  
There must be hope for us all If even I can find someone  
There's hope for us all
