Waster

Roller Genoa

I love my life on Mars
It has a side of perfect slumber
Just like a lucky charm
Keeps the nights from mornings afterAnd though I find it hard
I might say with a gay abandon
Girl, we got it all
A room with a view of the rings of Saturn
Girl, we got it all
Come spend your life on MarsIf you taste it, la la la, don't waste it, la la la
If you have the thing, you've always desired
Don't break it, la la laIf you crave her, la la la, don't waster her, la la la
If you have the one, you've always desired
Don't break her, la la la
I said you waste her, you wasterMy mind may go astray
But that don't mean that you should follow
This road to Mandalay
Where you might drown when the water's shallowAnd though you'll find it hard
You might add with a gay abandon
Now, girl, we got it all
On Santa Monica Boulevard
Girl, we got it all
Come hang on the BoulevardIf you taste it, la la la, don't waste it, la la la
If you have the one, you've always desired
Don't break it, la la laIf you crave her, la la la, enslave her, la la la
If you have the one, you've always desired
Don't break her, la la la
I said you waste her, you wasterIf you taste it, la la la, don't waste it, la la la
If you find the thing, you've always admired
Don't break it, la la laIf you crave her, la la la, enslave her, la la la
If you find the one, you've always desired
Don't break her, la la laI said you waste her, you waster
(La la la, la la la, la la la, la la la)
You waster, you waster
(La la la, la la la, la la la, la la la)
