

Shine a Little Light

Jeremy Fisher

When you face your maker
It's like living with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
Morning
Sunbird
Red sky
And a black bird
My still beating heart
Glow in the machine
Gives me some life
But don't tell me what it means
When you face your maker
It's like living with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
Shine a little light where you need it the most
Night falls
Moon rise
Winter
And the northern lights
Dance on the frost
Like sheets in the wind
Take you away
But don't tell me where you're goin'
When you face your maker
It's like living with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
When you face your maker
It's like living with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
Shine a little light where you need it the most
How will you find what you've been lookin' for
If it's nothing that you've seen before
How will you find what you've been lookin' for
If you're starting it over
Starting it over again
When you face your maker
It's like living with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
When you face your maker
It's like, like living with, with a little ghost

Ain't gonna be no saviour
Shine a little light where you need it the most When you face your maker
It's like, like living with, with a little ghost
Ain't gonna be no saviour
Shine a little light where you need it the most
Shine a little light where you need it the most
