What Can I Tell You?

Local H

Whatever you want, whatever turns you on
Whatever you want to fix whatever's wrong
I wanna go to where the parties are
Where all my friends are tending bar, oh yeah
Whatever turns you onWhat can I say that you can't say better?
What can I tell you?Whatever you want, whatever turns you on
Whatever you want coming right along
Shaking hands and all things lame
Kissin' ass and taking names, oh yeah
Whatever turns you onI know a thing about a thing or two
But what can I tell you?A thing or two about a thing or two
But what can I tell you?
Easily fooled and every thing's cool
What can I tell you?
Caught between now and never
What can I tell you?
What can I say that you can't say better?
What can I tell you?
What can I tell you?
What can I tell you?What can I tell you?
What can I tell you?
What can I tell you?
...
