

Where Did We Go

[Freja Kirk](#)

i walk up, up the stairs here, cause i see you left the light on
hoping that I come in there and lye down by your side.
Theres a hole, down inside me, you once filled, filled me all up.
in the dark of the night girl, we whisper, forever, forever but..
where did we go? i lost you, i lost you.
where did we go? I need it, I need it.
where did we go? i lost you, i lost you.
where did we go? can't go on without you yeah.
i Walk in, you're already sleeping, so you can't hear me singing.
girl i bet you we're dreaming, oh do you still dream about me?
do you believe i still remember, all that we said, about surrender it to each other like we're
lovers, forever, forever, forever, but..

where did we go? we lost it, we lost it
where did we go? I need it, we need it.
where did we go? i lost you, i lost you.
where did we go? can't go on without you yeah.
can't go on without you yeah
where did we go? we lost it, we lost it
where did we go? I need it, we need it.
where did we go? i lost you, i lost you.
where did we go? can't go on without you yeah.
can't go on without you yeah
where did we go? i lost you, i lost you.
where did we go? I need it, we need it.
where did we go? i want you, i want you.
where did we go? i can't live without you yeah
i can't live without you yeah
