

Am I Right (Or Amarillo)

Asleep At the Wheel

We started out with good intentions. Makin love right there in the kitchen
You and me were getting along just fine, got along just fine
More than crazy bout one another.
I was just a man and you were my lover
Glad that I was yours and you were mine For awhile I could do no wrong.
You laughed at my jokes and you danced to the song
Not to bad for an Amarillo country boy. _____? country boy
I said if we could just stay together.
It could be just like this forever
Finer things in life we would enjoy You told me you thought that I was wrong
Ya said our love wouldnt last too long
I dont want to leave you all alone
So should I stay or should I go back home Am I right or Amarillo
Do I stay here with you or hit the road
Am I right or Amarillo
I love you but I can always go back home Solo: one [A] section Now pretty soon it was just like I figured.
Ya told me that youd reconsidered
I could stay with you and be your man,
be your lovin man
Now it seems theres a brand new problem.
Country boys learn their lessons when their taughtm
Ive learned about as much as I can stand Now Im the one who thinks that I was wrong
I dont think our love is gonna last too long
I really really really hate to leave you all alone
But Teks is a callin me back home Am I right or Amarillo
Do I stay here with you or hit the road
Am I right or Amarillo
I love you but I can always go back home Now It might be as flat as a pancake.
But how much heartache can one man take
Amarillo weve been too long apart,
been too long apart
Theres no need for me to keep on talkin. If Im a goin Id better start walkin
Am I right or Amarillo never broke my heart. Nah ha
