Web of Me

The Internet

[Small Laughter Intro]I hope you notice the lack of social contact
It's not that your not all that
It's just I know how this will end
Don't try to say you'll change for me
But that's not the way to go
And even before
I don't wanna try again with you
That's not the mood, NoooYour jus caught up in a web of me
Don't realize the reason why we never speak
It's you not meYour jus caught up in a web of me
Don't realize the reason why we never speak
It's you not meAnd you should know
I never tried to hurt you girl
Just got tangled up in the idea of being together
We can live different lives
Together, Gotta move on
Just let it go, Move on
I'm not the one for you and I know itCall me, you need it
I got chu'
Don't call me babe cus I wanted you
You know I'll end up going
Ask me for head when I want it
Make sure it's pure and it's friendship (so pure)Your jus caught up in a web of me
Don't realize the reason why we never speak
It's you not meYour jus caught up in a web of me
Don't realize the reason why we never speak
It's you not meYour jus caught up in a web of me
Don't realize the reason why we never speak
It's you not meYour jus caught up in a web of me
Don't realize the reason why we never speak
It's you not me
