

Angel, Angel, Down We Go Together

Morrissey

Angel, angel
Don't take your life tonight
I know they take and that they take in turn
And they give you nothing real for yourself in return
But when they've used you and they've broken you
 And wasted all your money
 And cast your shell aside
And when they've bought you and they've sold you
 And they've billed you for the pleasure
 And they've made your parents cry

I will be here, oh, believe me
I will be here, believe me
 Angel, don't take your life
 Some people have got no pride
They do not understand the urgency of life
 But I love you more than life
 I love you more than life
 I love you more than life
 I love you more than life
