## Snailhouse

Forget the letter, just sleep sound tonight  
Pull back the covers without a fight  
But as we dance by emergency light  
I fail to swallow my tongue  
And I'm still here bleeding  
So pull this switch and see my body twitch  
Oh, as we dance on this memory  
A light left blinking on it's own  
And my blood is flowing  
Down through this machine  
In hope and desire  
In hope I expire  
Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
So pull this switch and see my body twitch  
Oh, as we dance on this memory  
Despair has devoured me whole  
A seed won't grow from this soul  
This pull won't cure my disease  
Can't you kill this bleeding heart?  
Turn off this machine  
'Cuz this is the only thing that's keeping me alive  
Turn off this machine  
'Cuz this is the only thing that's keeping me alive

Please nurse, my batteries are running low  
Please nurse, oh, oh, I think I'm running low  
Left here swallowed by this fear  
That you will always keep me here  
To close your eyes and pray for this to go away  
'Cuz I'm not angry, tired or sore  
More of a man than I was before  
Is this the 'cause I'm looking for?  
I plead, forgive me  
'Cuz I'm no martyr  
Is this the 'cause I'm looking for?  
I plead, forgive me

'Cuz I'm no martyr  
Is this the 'cause I'm looking for?  
'Cuz I'm not angry, tired or sore  
More of a man than I was before  
Is this the 'cause I'm looking for?  
I plead, forgive me  
'Cuz I'm no martyr  
You're not the 'cause I'm looking for  
I plead, forgive me  
'Cuz I'm no martyr  
And you're not the 'cause I'm looking for
