You Can

Body Language

I've got time to kill
Like we all do
I've got to fill it upWhen I mill about
Like we all do
It's on the heels of my thoughtConvenience takes its place
Like it always does
With the sun into the moonYou play my only tune
Like you always do
It keeps my feet upon the groundAnd you can stop
But you won't
And you can stop
But you won'tEyes off the ground
Look at this world around us
You tell a tale
It writes our history for usI run away
You pull the sheets around us
I put this out
But it is just so un-der usAnd you can stop
But you won't
And you can stop
But you won't
