

No More

[Richard McGraw](#)

You know I cannot break
Promises I make to myself
To suffer like an animal without control
Is no longer a virtue that I hold to be true
Not for me, not for you No more, no more Yes I must confess
On a scale of worst to best I think that we
Never really took that test to see
Why worst is for the rest and not for you and I
Not for me
No more, no more No more, no more
Not for me, no more
