

Are You Still Mine

Highway 101

Darlin', what did she say when you were alone?
All week long you've been actin' strange
Talkin' to her on the phone Has she gotten' through to you
Got you believin' I'm no good?
What did she say or do to make you act so cruel? Tell me, according to her do I cheat, do I lie?
And do you believe her even some of the time?
And the love you've given to me is it still mine to keep?
Or has she taken that too along with your sanity? My darlin', don't you still love me?
Or have all the words she said
Changed your mind? Have you been so misled?
Has she gotten you in her bed?
Oh my darlin', are you still mine? Tell me, what will we do when she's had her fun?
When she's stolen our love away
And it's gone like a thief on the run? And when it's too far gone to ever get it back
What will you say or do
To ease the loss we've had? My darlin', don't you still love me?
Or have all the words she said
Changed your mind? Have you been so misled?
Has she gotten you in her bed?
Oh my darlin', are you still mine?
Oh my darlin', are you still mine?
