

The Sea

Van She

I've found?
A rainy day forever
Bell that pings
Time and loose won't last away forever And I became the tall care free
In your head dreams that never ever end On to B.C
To breath the air till never
?
You and I and me and you together And I became the tall refrain
In your head dreams that never ever end Say Hello to me
Sail away with me
Re-drawn the earth
We slept till we were frozen
?
We spoke in tongs we never wanted spoken And you said
Time will change
These things
For you will always be the same Say Hello to me
Sail away with me Now that I'm awake
You know that we are broken
The tiny hand
Is past with doors, were shut they are now are open Cause I'm still the tall care free
In your head dreams that never ever end
Say hello to me
Sail away with me
Say hello to me
Sail away
