Jump5

Although I'll never deserve it
I realize that you won't give
Me all of your love
I couldn't ever return it
I know that I
Could never give you reason enough

Your love
Came over me
You found the way to my heart

Tell me why
What have I done
I got you
Now you'll always be the one
Tell me how
Can this be true
I'm with you
Now I really want to know
Tell me why

Let everybody believe it
I want the world to see the kind
Of love that we've got
Deep down in me I can feel it
I'm gonna give you all I have
And no matter what

You love
Came over me
You found the way to my heart

Tell me why
What have I done
I got you
Now you'll always be the one
Tell me how
Can this be true
I'm with you
Now I really want to know

Tell me why

I'm gonna wait no longer
To show how I really feel
My love is growing stronger
You're all that I need

You are my love for life
Nothing can tear us apart

Tell me why
What have I done
I got you
Now you'll always be the one
Tell me how
Can this be true
I'm with you
Now I really want to know
Tell me why
