

# Drowning (feat. V. Rose)

Derek Minor

You keep overwhelming me  
Keep on rushing in and I can't breathe  
Suffocating over you  
And I can't escape I'm in too deep  
This must be the way it feels  
Were you drowning, were you drowning, were you drowning  
This must be the way it feels  
This must be the way it feels  
This must be the way it feels  
This must be the way it feels  
Were you drowning, were you drowning  
Were you drowning, were you drowning  
I can feel the tide is rushing in  
But I'm incapable to break the waves  
Like all of me of me tied to an anchor, and I can't let go  
This must be the way it feels  
When I'm drowning  
When I'm drowning, ohh  
This must be the way it feels  
This must be the way it feels  
This must be the way it feels  
This must be the way it feels  
Were you drowning, were you drowning  
Were you drowning, were you drowning  
Ohhhh  
This must be this must be the way  
This must be this must be the way  
This must be this must be the way it feels  
This must be this must be the way  
This must be this must be the way  
This must be this must be the way it feels  
This must be this must be the way  
This must be this must be the way  
This must be this must be the way it feels (the way it feels)
